

Streamlined Lending Solutions to Drive Innovative Agriculture

BUILD RESILIENT AG WITH AN EMBEDDED FINANCING SOLUTION

Powerful lending tools from Growers Edge make goals attainable for both you and your customers. By streamlining and digitizing the lending process, farmers are able to apply for a loan safely and securely, all online. The digital lending platform, tailored to your business, keeps loan information conveniently and safely available in one location for ease of use.

Customized Solutions For Your Business

Whether you use Growers Edge software as a service (SaaS+) or partner with us to build a fully-funded lending program, there is a customizable solution fit for your business, including:

Growers Edge's Digital Application and Loan Management Platform make it uncomplicated for farmers to apply for, manage and pay off their loans, helping them more easily access credit to innovate or expand their operations.

Growers Edge's Underwriting Scorecard provides a fast, accurate assessment of a grower's financial strength. A proprietary blend of traditional lending analytics, such as credit and relevant risk factors, combined with specialized short-term financing, enables you to be confident in a customer's ability for repayment.

Growers Edge Digital Payments simplify the loan management process. Farmers can quickly and securely make payments or check their loan maturation date from a phone, tablet or computer 24/7.

Growers Edge Portfolio Management System helps ag retailers efficiently manage their loan portfolio in real-time while keeping customer loan information safe and accessible.

Empower your sales force and increase sales by building custom financing offerings that deliver the flexibility your customers need to innovate and grow their operations.

Data Security and Privacy

Our achievement of AICPA SOC 2 Type I compliance is a testament to our ongoing efforts to keep you and your customers' data both private and secure.

CASE STUDY:

INCREASED ACRES THROUGH INNOVATIVE FINANCING SOLUTION

PURIS, a major U.S. producer of organic plant protein piloted a financing offer with Growers Edge's embedded financing solution, enabling their customers to expand soybean and yellow pea production to meet a growing demand.

SEED ACRES

"Our pilot project with Growers Edge has given farmers more flexibility to pursue these practices with confidence and security and allows Puris to better support them along the way."

Nicole Atchison,
PURIS Holdings CEO

Growers Edge provides data insights and fintech tools, including warranty-backed crop plans and financing solutions, that enable agricultural innovation to thrive and scale.
